Press Release

SYBE Medical Management Opens Three New Locations

01.19.10, 01:00 PM EST

BusinessWire - SYBE Medical Management, a Los Angeles-based firm specializing in improving the bottom line for physician offices by processing their billing announced the opening of three new offices. The new locations include [San Francisco](#), [San Diego](#) and [Las Vegas](#).

"More than ever, physicians are looking for ways to improve their bottom lines because of increased paperwork and reduced compensation from insurance companies and government programs," says Steven Garrett, manager of SYBE. "We want to have better access to the physicians in the primary markets of California and Nevada," Garrett added.

SYBE's whole approach to physician billing and insurance paperwork is efficiency: the number one measure of their success in improving a bottom line.

Beginning with an analysis of concerns and needs through meeting with the doctors, SYBE then assigns one of their highly experienced teams trained to resolve and execute the doctor's monthly billing. Each SYBE team utilizes the latest state-of-the-art billing and information management software to maximize payments and minimize the time it takes to get them.

The key to SYBE's success is the high staff-to-client ratio for superior attention to detail. Typically, the SYBE team works directly with an office manager, keeping the physician's office informed with detailed reports and monthly analysis.

All medical payments are sent directly to the physician. SYBE never receives billing payments.
